

## Dead Identification Form Fields

### General Condition

▼
Complete Body
Incomplete Body
Body Part

This field asks the general condition of the body that was found. This field determines if the body is either complete, or incomplete, or if there is only a body part that was found.

### Body Condition

▼
Well Preserved
Decomposed
Partially Skeletonized
Fully Skeletonized
Burnt

This field determines the condition of the body the time it was found.

### Apparent Sex

▼
Male
Female
Undetermined

This field asks for the gender of the person; an undetermined option is available because there would be cases that the body is not preserved or undistinguishable.

### Age Group

▼
Infant
Child
Adolescent
Adult
Elderly

This field asks what age group does the dead person belongs to.

### Height

▼
Short
Average
Tall

This field asks for the height of the dead person that was found. This field is completely generalized to make it easier for the user to answer.

### Weight

▼
Slim
Average
Fat

This field asks for the weight of the dead person that was found. This field is completely generalized to make it easier for the user to answer.

## Head Hair

### Length

Bald
Short
Medium
Long

This field determines the length of the head hair of the missing person. The field is completely generalized to make it easier for the user to answer.

### Color

Black
Blonde
Brunette
Brown
Red
White
Other

This field asks for the color of the hair of the missing person, for easier identification if the person is seen.

## Facial Hair

### Type

Mustache
Beard
None

This field asks if the person has a facial hair or not, and if it's either a mustache or a beard.

### Length

Short
Medium
Long

This field asks for the length of the missing person's facial hair if the person has any. This field wouldn't be available for answering if the person doesn't have facial hair.

### Color

▼

- Black
- Blonde
- Brunette
- Brown
- Red
- White
- Other

If the person has a facial hair, this field asks what color it is. If the person does not have a facial hair, this field wouldn't be available for answering.

## Skin Marks

### Select all that applies

- ☐ Scars
- ☒ Tattoos
- ☐ Birthmarks
- ☐ Moles

This field contains checkboxes asking if the person has any distinguishing skin marks that the authorities can use to identify the person.

### Where is the tattoo(s) located?

- |                                  |                                     |                                     |                                |
|----------------------------------|-------------------------------------|-------------------------------------|--------------------------------|
| <input type="checkbox"/> Head    | <input type="checkbox"/> Face       | <input type="checkbox"/> Neck       | <input type="checkbox"/> Chest |
| <input type="checkbox"/> Stomach | <input type="checkbox"/> Upper Back | <input type="checkbox"/> Lower Back | <input type="checkbox"/> Arm   |
| <input type="checkbox"/> Hand    | <input type="checkbox"/> Legs       | <input type="checkbox"/> Feet       |                                |
| <input type="checkbox"/> Other   |                                     |                                     |                                |

This field will appear if one of the checkboxes in the skin marks field is checked. This field allows the user to pick what part of the body of the person is the skin mark located.

## Skin Marks

### Select all that applies

- ☒ Scars
- ☐ Tattoos
- ☐ Birthmarks
- ☐ Moles

### Where is the scar(s) located?

- |                                  |                                     |                                     |                                |
